1. It is noted that Applicant has argued that independent claims 11, 12, and 13 are clear and definite in that there is no need to claim the GPR in the body of the claim and in that the claims are clear that the GPR is not part of claimed invention.

2. In response, the following remarks are offered. In looking at the preambles for each of independent claims 11, 12, and 13, it is not at all clear that the GPR is not part of the intended claimed subject matter. Particularly, please note in the preamble of independent claim 11 the phrase "using ground penetrating radar (GPR) containing at least one GPR sensor." How can the apparatus in independent claim 11 be claimed as being an "apparatus ... using ground penetrating radar (GPR) containing at least one GPR sensor" without having GPR recited? The absence of GPR from the body of claim 11 makes the phrase "using ground penetrating radar (GPR) containing at least one GPR sensor" meaningless in context. The same problem occurs with the phrase "using ground penetrating radar (GPR) in a system containing at least one GPR sensor" in each of independent claims 12 and 13. There is no sense in which these phrases may be taken in the context of claims 11, 12, and 13 in which these phrases would make either grammatical or logical sense.

Absent any clear and convincing argument from Applicant to overcome the rejection of record of claims 11-13 and 34-36 under 35 USC 112, second paragraph, the rejection of record of claims 11-13 and 34-36 under 35 USC 112, second paragraph is hereby maintained as set forth in the previous Office Action.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
